

Intercoastal Endo

— Mark Conard D.M.D., M.S. —

MEDICAID FINANCIAL AGREEMENT

Medicaid only covers expenses for exam, x-rays and root canals. There are times when an electric pulp test is necessary to determine if a root canal is needed. Also, the canals of the tooth needing a root canal can be obstructed (blocked), therefore needing additional treatment. These fees are not a covered expense under Medicaid and therefore you will be responsible for these fees. We cannot predict these procedures until you are seen, but you will be informed of these procedures, as we become aware of them.

Please see the receptionist for any additional information.

Pulp Test \$65.00

Obstruction \$____.00

Nitrous Oxide \$110 (if Medicaid does pay for this, you will be reimbursed)

IV Sedation

Root Closure(Apexogenesis)

Apicoectomy

ReTreatment
